## **Agricultural Buildings**

Agricultural Buildings, as defined in the International Building Code: A structure designed and constructed to house farm implements, hay, grain, poultry, livestock and other horticultural products. This structure shall not be used for human habitation or a place of employment where agricultural products are processed, treated or packaged nor shall it be a place used by the public. Additionally, the City of South Bend recognizes that certain buildings used for mariculture are exempt from the full permit process. These buildings shall not be used for human habitation or a place of employment where mariculture products are processed, treated or packaged nor shall it be a place used by the public. These buildings shall be issued an exempt City of South Bend Building Permit as long as the following requirements are met.

1. Must meet all applicable building codes
2. City of South Bend Development Application, Building Application, Planning Application and site plan are required in addition to this form
3. Washington State Electrical Permits are required if application (L & I 360-575-6922)
4. One-story structures may be limited to 4,400 square feet in area.
